

I am writing concerning your "Localism" campaign and it's affect on my ability to continue to listen to KLOVE 100.1 in San Diego CA. This station truly serves me as far as providing safe listening music for myself and my family, especially my children. It also provides me with the news that affects my life. If this station was to longer be available I would be deeply affected as well as many of my friends! This station provides so much in our lives and I know that it affects our community in a very postive way. Please do not stop this station from broadcasting it's clean, postive, upbeat and truthful message to our community. Thank you!
